

The Villages at Swansboro  
Dish Regulations  
30 August 2006

Satellite Dishes are permitted in the villages, but must be installed in compliance With the following:

- 1) Can only be placed in the personal landscape area.
- 2) The dish cannot exceed 1 meter in diameter.
- 3) Top of antenna cannot be more than 8 feet above ground.
- 4) Cabling must be run underground from dish to cable entry point near the electric meter.
- 5) Pole must be secured in ground with cement.

Dish owner will be held financially responsible for damages to any unit home as a result of the dish becoming detached from pole. The Association will in no way be held responsible.
